

ISHIKA BELEL

Backend Developer with AI/ML integration expertise

Mumbai, India | 9167638253 | ishikabelel@gmail.com | github.com/Ish200565 | [LinkedIn](#) | [Certifications](#) | [Leetcode](#) (60+ Solved)

PROFESSIONAL SUMMARY

Final-year Computer Science engineering student specializing in backend systems and AI/ML integration. Skilled in building production-ready REST APIs, JWT authentication, scalable database schemas, and RAG/LLM-powered features. Experienced in end-to-end development from backend logic and real-time communication (WebSockets, APIs) to deployment on cloud platforms.

TECHNICAL SKILLS

Backend: Python, Flask, Django, FastAPI, REST APIs, JWT, RBAC, Node.js, Express.js, WebSockets

Databases: PostgreSQL, SQLAlchemy, MySQL, SQLite, MongoDB, Prisma ORM

AI/ML: RAG pipelines, ChromaDB, vector embeddings, LLM APIs (OpenAI, Gemini, Groq), Hugging Face, PyTorch, TensorFlow, scikit-learn, NLP, OpenCV

Deployment: Docker, CI/CD (GitHub Actions), Cloud Deployment (AWS Fundamentals), Vercel, Netlify,

Tools: Git, GitHub (230+ contributions in 2026), Postman, Figma, Object-Oriented Programming (OOP), Data Structures & Algorithms

EXPERIENCE

Web Development Intern | Happieloop Technologies

Oct 2025 – Dec 2025

- Integrated frontend interfaces with **15+ secure REST APIs** using Node.js and Express, optimizing data flow patterns and reducing API payload delivery latency by **15%**.
- Coordinated within an agile engineering squad utilizing structured Git workflows and rigorous code reviews to ship **3+ product modules** ahead of production deadlines.

PROJECTS

1. Smart Expense Tracker — *AI-powered expense manager with receipt scanning* [Link](#)

- AI-powered expense manager with JWT-secured REST APIs, PostgreSQL, Groq Vision OCR, and RAG pipeline over ChromaDB for natural-language queries parsing with **94% accuracy**.
- Designed production-ready APIs with schema migrations and deployed on Neon for reliable cloud uptime.

2. MedVerify — *Offline-first PWA for NGO medicine and medical camp management* [Link](#)

- Offline-first PWA with Node.js, React, MongoDB, OCR-based inventory tracking, AWS Lambda/SES alerts, scalable backend integration ensuring seamless medical camp inventory tracking during remote field blackouts.
- Delivered scalable backend architecture with automated expiry alerts and offline-first support.

3. Campus Voice — *Campus safety platform with NLP-based complaint triage* [Link](#)

- Flask/Django platform with NLP complaint triage, Map APIs, and real-time heatmap visualization for safety reporting
- Implemented real-time WebSocket communication for live incident tracking and visualization.

4. SocioSentiment — *Sentiment and emotion analysis app for social-issue text* [Link](#)

- Streamlit app using Hugging Face RoBERTa for multilingual sentiment/emotion analysis with live news-feed integration
- Deployed with CI/CD pipelines ensuring continuous updates and scalable model serving.

EDUCATION

Universal College of Engineering — BE Computer Science | 2023 – 2027 | CGPA: 9.48

Mithibai College — HSC, Science (PCMB) | 2021 – 2023 | 71%

St. Soldier Public School — SSC | 2021 | 91.20%

HACKATHONS (5+)

- Smart India Hackathon 2026 (National) – FLOATCHAT, platform to optimize public ocean data access frameworks.
- Hack With Mumbai 2.0 – MammoCheck, a deep learning diagnostic system to evaluate breast cancer tissue density.
